What is the TLC Lifetime CommitmentSM?

At TLC, we stand behind your distance vision results for life because we have confidence in our surgeons and in the stability of our patients' long term results. Our intention is to help you maintain the best possible vision throughout your life.

We call it the TLC Lifetime Commitment. The primary benefit of the program is TLC's assurance that if a re-treatment is needed to maintain distance vision results, clinically qualified patients will receive a re-treatment without charge at any TLC Laser Eye Centers location across North America.

Who is eligible for the TLC Lifetime Commitment?

The TLC Lifetime Commitment program includes qualified patients who have had laser vision correction at a TLC Center by a participating surgeon. Most nearsighted and astigmatic TLC patients are eligible for this program. *Since 99% of the myopic population falls into this group, we expect our program to benefit the majority of TLC patients. Farsighted (hyperopic) patients are not eligible for the TLC Lifetime Commitment.* Please read the program's detailed guidelines for complete information.

To Maintain Eligibility in the TLC Lifetime Commitment

1. Complete your course of post-operative appointments during the first 12 months after treatment.
2. Have your annual eye-exam with your TLC affiliate doctor.
3. See membership guidelines for complete details.

The First Year

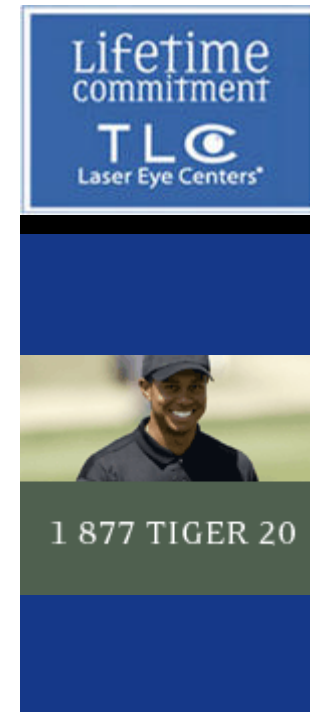

All TLC patients may be eligible for a LASIK re-treatment without charge if it is within the initial 12 months following their procedure and the re-treatment is medically advisable, as determined by your doctor.

What if I require a Custom LASIK upgrade?

If you had Conventional LASIK, qualify for the TLC Lifetime Commitment, and require a Custom LASIK upgrade, you will be charged for the difference between the current retail cost of Conventional LASIK and the current retail cost of Custom LASIK. If you originally had Custom LASIK, qualify for the TLC Lifetime Commitment, and require a Custom LASIK re-treatment, your re-treatment is without charge.

What if I am not eligible for the TLC Lifetime Commitment?

If it is within 12 months of your original procedure and a re-treatment is medically

advisable, patients who are not eligible for the TLC Lifetime Commitment may receive Conventional LASIK re-treatments at no charge. If you originally had Conventional LASIK and a Custom LASIK upgrade is medically necessary as determined by your doctor, you will be charged for the difference between the current retail cost of Conventional LASIK and the current retail cost of Custom LASIK. If you originally had Custom LASIK and require a Custom LASIK re-treatment, your re-treatment is without charge.

How do I enroll in the TLC Lifetime Commitment Program?

Patients are automatically enrolled in the TLC Lifetime Commitment upon completion of laser vision correction treatment of myopia and/or astigmatism, subject to the guidelines. A TLC Lifetime Commitment Membership Card and guidelines will be provided to eligible patients on the day of their procedure. Patients must sign a TLC Lifetime Commitment Acknowledgement, stating they understand the conditions of the program.
